*Addressing Barriers to Healthcare & Preventive Cancer Screenings in
Individuals with Developmental & Intellectual Disabilities (IDD)*

Scenario Briefing Form

ECHO ID: Spitalnik

“Health Care Policy & People with Developmental Disabilities: We All Need to Be
Advocates” 11.2.21

Key Questions for Discussion

(Note to the presenter: Please focus on the key question relating to the most significant challenge faced by your consumers/patients/providers related to barriers to healthcare and cancer screenings for individuals with IDD.)

Scenario/Examples	
	Health & Disability Policy is shaped &/or determined by larger social forces
	Health Care for People with Disabilities
	Paradigm Shift in Service Systems
	Medicaid
	Affordable Care Act
	Threats to Care for People with Disabilities
	Resources- Stay Informed

Key Stakeholders	
Local-Related Issues: (Local access, processes, staffing, etc.)	
National-Related Issues	

Governance Issues: (Funding, Structures, Processes, etc.)	
Other Relevant Information:	

Outcomes

In this section, include the anticipated outcomes that would occur if changes are made as a result of interventions made. What might happen without this intervention?

Reflections and Points for Discussion:

- It is intended the above text will be prompts only visible to presenter when completing electronic case presentation.
